🍁 A Canadian Company 🍁

Quest Brands: A Canadian Company!

Quest Brands Inc. is a proud, family-owned, Canadian Company, that began in 1979. We are a leading North American manufacturer of quality Construction & Safety, Garden Protection, and Winter Preparation products.

Some of our customers are surprised to learn that over 75% of our products are manufactured right here in Canada, at our state-of-the-art manufacturing facility in London, ON. Although the last small percentage of our products are manufactured elsewhere, most are brought in as bulk material and are converted down to consumer sizes and packaged in our London facility. This lets us maintain strict, quality control guidelines over both the products we manufacture and the ones we don't.
